Shiran (Alex) Feng

647-533-1066 | fengalex671@gmail.com | GitHub: https://shiranfeng.github.io/Portfolio/

SUMMARY

- Demonstrated skills in visual communication, illustration, research-based analysis, and digital design, developed through academic projects, and hands-on experience supporting promotional materials and events.
- Proficient in Procreate and Adobe Photoshop for illustration and image adjustments, with knowledge of HTML and JavaScript, alongside experience in iterative problem-solving, visual storytelling, customer service, teamwork, and event coordination.

EDUCATION

OCAD University, Faculty of Design — Sep 2023 – Apr 2027 (E)
Bachelor of Design, Illustration — Toronto, ON

- Courses: Design as Research, Book Illustration, Business & Social Innovation, Computer Science, etc.
- OCAD Critique Club (2023–2024): Participated in peer critiques and discussions of creative work, exchanged constructive feedback, and explored different approaches to visual interpretation and design development.

WORKING EXPERIENCE

Shandong Mainland Real Estate Co. Ltd. — **Summer 2023, 2024, & 2025**
Summer Analyst, Marketing & Design — Weifang, China

- Visual Design & Evaluation: Collaborated with the design team across 3 summer internships to review real estate promotional posters, assess visual hierarchy, composition, and image placement, and recommend revisions that strengthened presentation clarity and visual consistency.
- Marketing Content Optimization: Evaluated existing poster layouts from the audience's perspective and suggested adding, removing, and repositioning design elements, helping make property-related information easier to identify and promotional materials more visually engaging.
- Digital Content Production: Used Procreate for design-related tasks and Adobe Photoshop to adjust images and refine visual assets, supporting the preparation of 5 promotional materials for real estate marketing activities.
- Event Marketing & Coordination: Assisted with over 10 property-related promotional events by preparing venues, arranging activity spaces, and communicating event details to participants in advance, helping ensure organized event logistics, clear communication, and a smooth participant experience throughout each event.
- Project Coordination & Teamwork: Exchanged design feedback with team members and senior executives, supported the preparation of promotional materials, and coordinated event logistics, helping deliver 5 marketing tasks and event preparations on schedule while maintaining team alignment and consistent execution across assignments.

Daimaru Shabu Shabu — **Jan 2024 – Present**
Group Lead — Toronto, ON

- Customer Experience & Service Delivery: Managed service for an assigned section of 6 tables, handling orders, customer inquiries, and table clearing across 5 table turnovers per half-day shift to maintain an organized and efficient dining environment.
- Team Leadership & Workflow Coordination: Led fellow servers during peak periods by assisting with order taking, table clearing, and customer requests, helping balance workloads and maintain consistent service across the team.
- Operational Efficiency & Prioritization: Coordinated multiple service responsibilities in a fast-paced environment, prioritized time-sensitive tasks, and communicated with teammates to maintain smooth workflows.
- Customer Communication & Problem-Solving: Listened to customer requests, clarified service needs, and addressed routine concerns promptly, helping resolve issues and deliver responsive, customer-focused service.

RESEARCH & PROJECT EXPERIENCE

- Design as Research (Summer 2026): Developed an independent research proposal examining how algorithmically curated social media content influences art students' creative self-efficacy and willingness to experiment, critically reviewed 5 academic sources, identified gaps in existing literature, and proposed a mixed-methods approach to investigate creative confidence and audience behaviour.
- Business & Social Innovation (Summer 2026): Collaborated on a group project combining business and social innovation, contributed to research and concept development, and helped produce a report, applying critical thinking, information synthesis, and collaborative problem-solving to an applied topic.
- Book Illustration (Summer 2026): Developed illustration work emphasizing visual storytelling, composition, and narrative sequencing, explored how visual elements communicate ideas and guide audience interpretation, and applied design principles to create cohesive visual outcomes.
- Interactive Drawing with HTML & JavaScript (Winter 2025): Independently designed and built an original browser-based drawing using HTML and JavaScript, translated a visual concept into an interactive digital artwork published online, and developed coding, debugging, and iterative problem-solving skills.
- Industrial Café Interior: A Study in Tonal Contrast and Ambient Light (Fall 2025): Examined how tonal contrast, ambient light, and a limited tan, black, and white palette shaped spatial depth, visual hierarchy, and mood in an industrial café illustration, reviewed scientific literature on pigment properties and colour perception, and evaluated how contrast supports visual communication and accessibility for viewers with colour-vision deficiencies.
